

**International School Counseling Association**  
**Grade 6-12 Core Counseling Curriculum Scope and Sequence**  
**Version: Master Document**

**A note about this document:** *In an endeavor to make our jobs both easier and more cohesive, members of the ISCA team have been working on developing a PS-Grade 12 Scope & Sequence for the Core Counseling Curriculum. What this specifically addresses is content that could/would ideally be available to all students over the course of a school year.*

*The Core Counseling Curriculum consists of structured developmental lessons designed to assist students in achieving the desired competencies below and to provide all students with the knowledge and skills in the four domains ( academic, career, personal/social and global perspective). This curriculum is infused throughout the school's overall curriculum and is presented systematically through preK-12 classrooms, individual student planning and group activities. It is important to note that it does not need to be delivered solely by the school counselor. The various methods below are ways in which curriculum can be delivered include: classroom instruction, interdisciplinary units, group activities, etc.*

*A scope and sequence is an overview of the skills and content covered in your Core Counseling Curriculum at each grade over a period of time (scope), and in an order (sequence). Fully developed unit plans will require more detail than the outlines sketched here in the scope and sequence.*

*Using the [CASEL competencies](#) as a framework, the ISCA standards as a guide and the experience of counselors around the world as the foundation for this project, we have developed this Core Counseling Curriculum Scope & Sequence. We hope to have created a user-friendly document that counselors can use to support their curriculum lessons - it is not meant to be prescriptive in any way, but rather a resource that is helpful, dynamic, and recognizes the diversity that exists in our jobs.*

*Also important to the school community is having comprehensive prevention programs that focus on areas such as bullying, mental health awareness and suicide prevention and child protection. To emphasize these school-wide programs, which involve wellness committees, administration, crisis response teams, policies, procedures and student education, we have identified elements of the Core Counseling Curriculum that would naturally be a part of these prevention programs.*

*ISCA would like to extend its sincere appreciation to the authors of the of the Scope and Sequence who graciously contributed their time, passion and expertise to its creation. Specifically, Kathryn Manu, Heather DeVore, Brooke Fezler, and the ISCA Taskforce, as well as the many counselors who piloted and contributed their feedback through surveys and conference workshops from March 2016-May 2019.*

Mental Health , Wellbeing and Suicide Prevention

Child Protection and Safeguarding

Bullying/Harassment Prevention

## GRADE 6 CORE COUNSELING CURRICULUM SEQUENCE

CASEL Competency	Topic(s)	Objectives	ISCA Standard/Domains Addressed
	Introductions/Identity	Know who the counselor is and what the counselor does (counselor goal is to get to know the students), how to access the counselor.	Personal/Social C1
